

OUTSTANDING COLOR QUALITY, HIGH PERFORMANCE, INTUITIVE USABILITY

The imageRUNNER ADVANCE C7500 Series brings outstanding image quality and fast, reliable performance to high-volume office environments. These intelligent systems are designed to work seamlessly with Canon's integrated software and services to provide a holistic solution for your business.

Print up to 80/70 ppm (BW/color)

Scan up to 240/220 ipm (300 dpi) (BW/color, duplex)

Print up to 13" × 19"

9,300-sheet maximum paper capacity

Workflow Efficiency

- An intuitive user interface with a large, responsive, color touch-screen with smartphone-like usability helps make it easy to carry out tasks.
- My ADVANCE enables users to have a unique, customized experience that's tailored to their specific workflow needs. Settings, such as display language, initial log-in screen, and accessibility options, can be synchronized across multiple devices for consistency.
- Canon's MEAP platform supports a range of integrated solutions designed to simplify workflow and achieve a holistic business solution.
- Scalable support for mobile and flexible work styles can help increase efficiency by allowing workers to capture or print documents and access certain cloud applications.¹
- Scan and convert documents to Searchable PDF, Microsoft® Word, and Microsoft PowerPoint® files through a single-pass, duplexing document feeder that holds up to 300 originals.
- Intelligent features, such as motion sensor technology to wake the device from Sleep mode and the ability to remove blank pages when scanning, can help maximize productivity.
- Create professional-looking reports, proposals, presentations, booklets, and newsletters with flexible finishing options such as professional punching, folding, document insertion, and booklet-making.
- The optional imagePASS print controller offers fast processing along with tools and utilities for producing professional-looking documents. The optional ColorPASS controller offers even more robust processing capabilities and additional graphic arts tools for color-critical environments.

Quality and Reliability

- Canon has employed proven engine technologies from the light production space to contribute to high-quality output, designed to meet the needs of demanding color environments.
- Produce consistently striking images with CV toner and outstanding imaging technologies, including Canon's V² color profile, up to 2400-dpi print resolution with R-VCSEL red laser technology, and a cooling system for the developer that helps maintain stable image quality over time.
- Employs Canon's signature reliability and is designed to help achieve maximum uptime with status notifications to help keep supplies replenished. These models also include intuitive user maintenance videos, the ability to replace toner on-the-fly, and automatic job rerouting (with optional solutions).
